

IT'S HIM!... YES! YES! ERA LUI... SÌ! SÌ!

Fernando, owner of a large chain store, suffers from worrying dreams: he seems to successfully court saucy women, but just as he is about to win them over, a youngster comes on the scene and steals them from under his nose. One day a young graduate, Walter, turns up in search of work, and since he is almost identical to Fernando's dream rival, the latter thinks to send him packing but after persuasion hires him. A series of comic events ensue, revealing a subconscious episode dating back to Fernando's childhood but all ends well, Fernando is cured and Walter gets his just desserts
