

ERIK THE CONQUEROR GLI INVASORI

In the 9th Century, two Viking children, separated since their early childhood with one raised by the British and the other by Vikings, meet after nearly 20 years as rivals as war breaks out between Britian and the Vikings for control of England.

Featuring a bombastic score by frequent collaborator Roberto Nicolosi (Black Sunday) and memorably co-starring the stunning Kessler twins (Sodom and Gomorrah), Erik the Conqueror showcases Bava's immense talent for creating awe-inspiring spectacle with limited resources.
