

HERCULES OF THE DESERT LA VALLE DELL'ECO TONANTE

A mystery veils the valley, the only thoroughfare in order to reach the land of the green pastures. No-one has ever managed to overcome the obstacle of the monstrous Echo Men, wild beings who provoke landslides and rock falls. The story follows the struggle to lay claim to the land beyond which the ruthless princess Farida wants to steal from the rightful assigns, the Gamaly, a peaceful nomadic tribe.
