

MOMO – THE CONQUEST OF TIME MOMO ALLA CONQUISTA DEL TEMPO

Momo is a sweet and shy little girl, who believes she has found new friends and a home among the ruins of an ancient amphitheatre. One day, out of the blue, however, she meets up with the Grey Men, a band of diabolical beings, whose aim is to steal time from humans. Momo wants to stop them, but she does not know how. Cassiopea, a magic tortoise, leads Momo to Master Hora, who is the only person able to help her.

When Momo returns to fight the Grey Men, she realizes that there is nobody left to talk to or play with and she fears that she has lost her friends forever. The world has changed and everybody has been incorporated into a new and rigid social structure. Despite finding herself alone, Momo decides to try to save her friends and the entire city against all odds.
