

MUSKETEERS OF THE SEA I MOSCHETTIERI DEL MARE

Pierre, Moreau and Gosselin escape from France and become buccaneers. However, their ship sinks and they manage to save themselves by boarding a galleon without being seen, taking the crew prisoner and then recruiting a group of pirates before heading for Maracaibo. Here, our trio present themselves as the captain and two officers of the ship. After a complicated series of events, they manage to uncover the plot of the Deputy Governor, who wants to oust the Governor, and also recover the latter's kidnapped daughters.
