

TERROR OF THE STEPPES I PREDONI DELLA STEPPA

Sandar, head of a band of marauders, kidnaps Samira – daughter of Yesen and bride-to-be of the powerful Altan. When the marauders are caught by Yesen's soldiers, Sandar manages to save himself. Having fallen in love with the girl, Sandar returns Samira to her father hoping to be pardoned; but Yesen sends her to Altan who in turn takes possession of Yesen's land. Sandar is then arrested but again manages to escape while Altan tries to take over the city, being later defeated in a duel with our hero. Yesen then appoints Sandar as his successor and gives him his daughter's hand.
