

THE JOURNEY OF JESUS IL VIAGGIO DI GESU'

A documentary about the social & religious contrasts in today's Palestine with archeological references.

Two thousand years ago Jesus of Nazareth professed peace, fraternity and tolerance. Some recognised him as the Messiah, others as a prophet, and yet others crucified him, accusing him of stirring up trouble. Today, a man sets out to retrace the main stages along this evangelical trajectory, going to sites of pilgrimage to find out whether the word of God still has meaning in those places where it all began, places which are now the theatre of war, incomprehension, hostility and narrow-mindedness.

DIRECTOR	SERGIO BASSO
